Skiing

—

The only ski-in & ski-out hotel in Tyrol's Ski Dimension.

The Ski Dimension ski resort was created by connecting the Serfaus, Fiss and Ladis ski areas, and is considered one of Europe's most family-friendly ski regions.

At an altitude of 1,436m on Austria's sunniest plateau, skiers can enjoy 212km of pistes for all levels of ability at 1,200-2,820m. 68 lifts, 1,112 acres of ski area and guaranteed snow until way into spring are as welcome as moguls, carving runs, fun areas, Berta's Kinderland, night skiing and extensive freeride zones.

Ideal for beginners, families with children and leisure carvers: wide slopes with plenty of space and even more sunshine. Children love their kids' ski courses as well as all the other attractions on and by the slopes.

Only the Schlosshotel Fiss offers ski-in & ski-out on the sunshine plateau. Thanks to the added bonuses of a sports shop, ski hire and an in-house representative from the Fiss-Ladis ski school, skiing holidays at the Schlosshotel Fiss are simply unbeatable.
